

Amendments to the Abstract

Please amend the Abstract as follows.

A cyber mall system has a contents sales apparatus for selling digital contents, a contents purchasing apparatus, and a network for connecting ~~these~~these components. When ~~the~~ digital contents are registered into the contents sales apparatus, ~~in the case where the digital contents are sold by the contents sales apparatus for defining digital contents using conditions constructed by a server side access control to the digital contents which is executed on the contents sales apparatus side and a physical act restriction to control an access to the digital contents which is executed on the contents purchasing apparatus side that purchased the digital contents,~~ digital contents personal using conditions are generated on the basis of ~~the~~ digital contents using conditions and are ~~given~~provided to a customer. ~~When~~If the digital contents are again purchased ~~if~~after the delivery of the digital contents fails, ~~so~~as long as the digital contents personal using conditions ~~given~~provided at the time of purchase are valid, the digital contents are again delivered without again collecting a digital contents value.
